Board of Trustees Meeting of June 17, 2015
Information Technology Report

QBE/Summit E & O TPA

We received our first sample data feed files from Summit on June 8th and we are currently reviewing. The go live date when QBE\Summit will take over our E&O claims is July 1, 2015.

NJSIG WebSite Hosting

We are going to be moving our website in-house and hosting our website starting July 1, 2015. We currently use a 3rd party to host our www.njsig.org website, and decided a couple years ago bring it in-house. We now have our intranet setup internally and adding the internet site just makes more sense.
