Board of Trustees Meeting of January 16, 2019
Client Relations, Underwriting Report and Safety and Risk Control

CLIENT RELATIONS:

Client relations has been working with Beazley and Lodestone on cyber liability self-assessment and vulnerability assessment for all members. Lacey Township has offered to be in the NJSIG Pilot program.

Seven winter sub-fund meetings are planned for January and February. We are looking forward to very interesting presentations on vaping in schools, mental health concerns, trends in cyber activity in schools and Family Medical Leave.

This month, we are attending the NJSBA New School Board Member Orientation Weekend on January 12th.

UNDERWRITING:

Underwriting has been working diligently for several months with the IT Department to design, test and implement a more efficient departmental ImageRight document workflow.

Underwriting is in the process of updating the NavRisk policy database in preparation for the upcoming renewal season. This includes the computation of each member's 2019-2020 Workers' Compensation experience modifier.

Underwriting is evaluating candidates for an open Certificate Processor position.

SAFETY AND RISK CONTROL:

Since the last Trustee meeting, 43 employees of members received CPR training, NJSIG representatives attended 12 safety committee meetings and six building inspections and one playground inspection took place. Brendan conducted safety and security consultations for sixteen buildings.
